

CREATE YOUR OWN PERSONALITY TEST

You will be designing your own personality test. YOU WILL NOT ADMINISTER THIS TEST TO ANYONE!

It must contain the following:

- 1) 5 objective test questions – clearly label this sections “objective”
- 2) 5 projective test questions (you may also use images like the TAT test) – clearly label this section “projective.”
 - a. If you choose to use a Rorschach Ink Blot, you must scan in the one you made in class or make a smaller version of it to be included. Please see Mr. Gallucci after school if you would like to utilize this option. YOU MAY NOT USE A RORSCHACH INK BLOT OFF THE INTERNET.
- 3) A clearly stated goal – exactly what is your test going to reveal about the person being administered it.
- 4) A scale for interpreting the data.
 - a. This scale must fit the exam you are making.
 - b. There must be a scale for each question. (10 total)
 - c. There must be one overall assessment that should link all your questions.

This project is due:

(I will subtract one letter grade for each day it is late)
