

PROJECT:
FREUDIAN CHILDREN'S BOOK

Using Microsoft PowerPoint, design a children's book according to the following guidelines:

- 1) Each slide in PowerPoint will represent one page.
- 2) Your book must contain the following characters
Id – The last name of this character is required to be “Id.” - Ex. Stup Id
This character will behave according to the pleasure principle.
Ego – The last name of this character is required to be “Ego.” - Ex. Leggomy Ego
This character will behave according to the reality principle.
Superego – The last name of this character is required to be “Superego.” – Ex. Steve Superego.
This character will behave according to the morality principle.
- 3) The ego character must encounter a conflict. His two friends, id and superego will help him to resolve the conflict according to the principles assigned to them by Freud.
- 4) You can resolve the issue any way you like – you can make the person be id dominant or superego dominant. USE CLIP ART TO ENHANCE YOUR STORY.

Minimum 10 pages

Due: _____

Leggomy Ego was in a real fix! He didn't know who to listen to!
Steve Superego made a really good point - it would be wrong to
chase that KRAZY KAT!
